I have a disc out of the game... you simply need to inspect the database and look for the 'identity.svc' (in Microsoft SQL Server Management Studio) then use SSMS to enter the data again. The service should work again. It may not look like much to you, but it is huge in scale! How to Use the Service We've seen how to use the identity service to create and access user accounts, but how do you actually login as a user? Use the Account Manager. From the Startup menu, choose Control Panel > User Accounts, and then click on the 'Add' button. Select 'Identity' from the drop down menu. Click 'Next'. Enter the User Name and Password you want to use, and click 'Next'. Select the account types you want the user to have access 3e33713323
