### What's New in the?

HS Password Inventory provides an intuitive, yet convenient way to manage and protect your sensitive data. The solution is designed to be secure, yet easy to use and update, allowing you to confidently keep track of your valuable items. It allows you to store all your most important data in a safe, yet manageable manner, so you do not have to worry about forgetting it. Additionally, it offers an intuitive layout, that is easy to use for even the least computer savvy users. The app also features an intuitive interface, that allows you to customize the way you interact with it, by adding a wide variety of personal and organization-specific features. You can also add as many items as you need, ensuring you have all the flexibility you need, in a single app. What's in it for you? You can make sure you never lose your data or mess up the security of your valuable information. You can choose to protect your passwords, your credit cards, your social media accounts, your images, or anything else you need to protect, and do so without sacrificing the power or usability of the data. Simply put, HS Password Inventory provides a secure way to store your data, and gives you the tools you need to ensure that it stays safe, and only you have access to it. With HS Password Inventory, you can:

- Choose to protect any item you want to keep safe. You can secure a phone number, credit cards, or anything else you want to keep safe.
- Create passwords for your secured items, and have them ready to go, any time. You can also have them automatically generate a new one, or change their complexity.
- Store your credentials in a safe place, easily and quickly.
- Have peace of mind that all your sensitive information is safe, and stored in a manner that will ensure you do not lose it.
- Have complete control over how your sensitive data is stored.
- Control the settings and features of your data.
- Create data categories and edit their settings.
- Create and manage multiple data categories, ensuring all the categories and their items are easy to locate.
- Customize how your data is categorized, and decide if you want to protect certain fields.
- Protect your data by entering its URL, which will keep it safe, even if you forget the password or app.
- Store your data as one or more text files.
- Make edits to your existing data, and import it to the app.
- Have a convenient, easy to use, yet simple interface.
- Have all the tools you need, and more.
- Get extra security features.
- Perform backups of your data.
- Secure your data with other apps.
- Make backups of your data and password or key ring.
- Sync your data across multiple devices.
- Change the way your data appears in the app.
