14 Recording the name of the color with a serial number from sec. 0-9. Profile (left view) with color, sector number, sector volume, with correct separators. The sector number is indicated fractionally, in the form "for example, 31199x3". Write the name of the sector with a sequence number from sector 0-6. When recording the name of a color, fractional entries are allowed. Number of numbers denoting color: No: 18, NoNo 256, 3386, 7490, 8178, 8478 and more. Ordinal numbers can be separated from each other by commas. â€œ Writing mathematical formulas and expressions. Bit and non-digit numbers, floating point numbers. PAEON, SIZULE (SMF). The "text" field, where you can write input values â€œ of different types. â€œ Search, enter and print text. â€œ Entering information from the keyboard. â€œ Selecting a folder and its contents. â€œ Correction of typos. â€œ Editing descriptions. â€œ Commenting on drawings. â€œ Bringing numbers and letters into a form suitable for printing. â€œ File management. â€œ Display a list of folders. Wherein: Help Screens - This parameter can have two values. Name and title of the book - the parameter specifies the name of the file (field "Name"), in the field "Name" enter the full name of the book located on the same page. The File field describes the path to the file on the hard drive. Input from the keyboard - the parameter can be a letter of the Russian alphabet, a letter of the English alphabet or a number (if possible). Print Format (PageMaker) If the parameter is omitted, a template file is created by default. If the user enters text in a WORD file, the system automatically collects all characters of the text into the file. Creating a template file does not mean that it will contain all the characters contained in the text. The system will automatically generate a list of characters to be removed when printing. Fields in the text 1. Placement method - the format of the beginning and end of the line. 2. Alignment format - left or right. 3. The method of highlighting a part of the text - bold or italic. 4. Text formatting - alignment in width or height. 5. Text Color (White or Black and White
