ClipChatz is a comprehensive browser tool, which will allow you to quickly and efficiently find the URLs of the pages you access most often. It can be used in a typical graphical browsers to see the list of most viewed pages. ClipChatz enables you to: * Save and open previously viewed pages * Get the list of most viewed web pages using a variety of parameters like URLs, date range, IP, protocols, domains * Skip to the previous or next page from a saved page * Search for web sites, sub-domains or keywords in the URL of a saved page * Clip pages to be saved and/or opened later * Get a list of bookmarks (cookies, history, etc.) in a simple and intuitive format * Check the usage of saved pages * Set a keyword to bookmark a specific domain * Backup the web sites you use most frequently, to save your time * Share the bookmarks or the saved pages with your friends on different social networks and on the desktop ClipChatz's main disadvantage is the fact that it is a separate browser extension. The application will ask for permission to access the browser's storage, which is not always an appealing prospect for privacy conscious users. This download is a demo release. An evaluation copy of ClipChatz Pro version 3.2 is included in the download. ClipChatz Pro Review: SpeedClipper is a small, yet a powerful, utility for Windows that can help you to identify, import and export bookmarks. It will give you more control over your bookmarks because it will allow you to sort and organize them into custom groups. You will be able to import and export a list of bookmarks, a folder or the whole browser window. It is important to know that it will not work with bookmarks in IE since it doesn't manage that particular type of data. By default SpeedClipper will try to detect the URL of a site or bookmark and will automatically create a shortcut with it. It will also try to get bookmarks from the history and custom bookmarks. It will even include online bookmarks from Facebook, Yahoo, etc. SpeedClipper can remember the last position of bookmarks in each group or sort them into the standard places of bookmarks panel. It will also display the list of recently viewed sites, which can be handy if you want to go back to the earlier pages. The new SpeedClipper 09e8f5149f
