
CAN YOU GIVE ME PRODUCT KEY

[Download](#)

April 14, 2012. Jan 10, 2012... I have received my product key for AutoCAD 2010, but when I go to activate the software, it says it has not been activated. My serial number is 45/30/37. As i said in my question, when i click in activate it say this error: "this product key is not active" it didn't activate my software, and when i try to reinstall my company asked me for serial number, but when i try to reinstall, it didn't activate, it stayed in this page. My company network policy does not allow them to install software that they do not buy.. Please help.my serial number is 81/27/13.I only see activation code and serial number but no software download link what should i do? I think i have a legal issue that i need to resolve. My two options are:(a) to install this software freely without buying and my company not willing to give a permission (b) Donate them to a cause for a worthy cause "I have tried all the forum i know.. When i click "activate" on the software, a dialog box pop-up for "activation" as following, please help me. I need an activation.. November 25, 2010.... So what i did.
