Audio recording, editing  
and mixing are tasks not  
too easy to carry out,  
especially without a  
proper software solution  
at hand for processing  
the input. Among the  
applications designed for  
these types of  
operations, n-Track Studio  
tries to combine function  
variety with ease of use  
to offer a really  
enjoyable experience to  
its users. Simple and

currently working on.  
Apply multiple effects  
and convert audio tracks  
Since it supports  
recording from several  
connected sound cards in  
the same time, you can  
easily create complex  
projects that involve  
multitrack mixing. There  
are many effects that can  
be added to a single  
track and what seems to  
be most interesting in  
this respect is the  
ability to add real-time
